MAYET MENGIST

Full-Stack Application Developer | AI-Powered Applications

your.email@example.com · github.com/yourusername · linkedin.com/in/yourusername · your-portfolio.example.com

PROFESSIONAL SUMMARY

Full-stack application developer with an Electrical Engineering and Control Systems background, focused on React, Node.js, Express, MySQL and AI API integration. Completed a six-month full-stack bootcamp (2026) and build projects that combine structured, systems-oriented troubleshooting with a project-driven approach. Seeking a junior full-stack role, apprenticeship or entry-level software position on a product team.

TECHNICAL SKILLS

Frontend	React, JavaScript, HTML5, CSS3, Vite, React Router, responsive interfaces
Backend	Node.js, Express.js, REST API design, request/response handling, authentication (JWT), validation
Data	MySQL, SQL, relational modelling, CRUD operations, database connectivity
AI Integration	LLM API integration, prompt design, Gemini API; learning RAG and embeddings
Tools	Git, GitHub, npm, VS Code, debugging, environment variables, deployment fundamentals

SELECTED PROJECTS

Evangadi Forum — AI-Assisted Q&A Platform GitHub · Live Demo

React, Vite, Node.js, Express, MySQL, JWT, Gemini API

- Built a full-stack Q&A application with user authentication and question/answer workflows.
- Designed a REST API with Express and a relational MySQL data layer; integrated the Gemini API for AI-assisted question drafting.

Netflix-Inspired Movie Discovery App GitHub · Live Demo

React, JavaScript, CSS, Vite, REST API

- Developed reusable React components that render dynamic content from an external REST API using asynchronous requests.

ChatGPT-Style Conversational AI App GitHub · Live Demo

React, JavaScript, LLM API, HTTP/JSON

- Integrated a large language model API into a chat interface, applying prompt design and asynchronous API communication.

PROFESSIONAL EXPERIENCE

Senior Technical Assistant 5 years

University environment

- Worked in a technical and academic environment, supporting systems and equipment through methodical troubleshooting.

Electrician 3 years

Practical electrical work

- Performed hands-on electrical work and fault-finding, building a disciplined, safety-aware approach to diagnosing problems.

EDUCATION

MSc, Control Systems Engineering 2025

Bahir Dar University CGPA 3.85

BSc, Electrical Engineering 2019

Bahir Dar University CGPA 3.45

Full-Stack Development Bootcamp 2026

Six-month program
